

TD21M

Raised panel cutterheads Piattabande multiprofilo

This item is supplied with knives and optional cutters. Cost saving: 5 different raised panels can be produced with this cutter at a fraction of the cost of individual tools.

This item is supplied without knives.

Light alloy body (Aluminum alloy). For cleaning do not use products containing caustic soda.

Esecuzione che permette di usare i differenti profili rappresentati in queste pagine.

L'articolo viene fornito senza coltelli.

Corpo in lega leggera (Lega di alluminio). Per la pulizia non utilizzare prodotti contenenti soda caustica.

TD51M

Raised panel cutterheads for soft and hardwood Piattabande multiprofilo per legno tenero e duro

This tool is designed to perfectly cut softwood or hardwood with two knives, with both along the grain or end grain feeding. This result has been achieved by choosing different cutting angles according to the type of wood to be machined. Only two knives are to be fitted on the tool at one time, in opposite direction. The dimensions of the knives for cutting hardwood and softwood are different but the same profile is achieved.

This item is supplied without knives.

Light alloy body (Aluminum alloy). For cleaning do not use products containing caustic soda.

L'utensile è concepito per poter lavorare con 2 taglienti su legno duro, con perfetta finitura, sia di testa che lungovena. Questo risultato si è potuto ottenere grazie alla scelta di diversi angoli di taglio sulle sedi per coltello. Si possono montare solo 2 coltelli alla volta e vanno montati diametralmente opposti. Le dimensioni dei coltelli per il legno duro sono diverse da quelle per legno tenero, però realizzano lo stesso profilo.

L'articolo viene fornito senza coltelli.

Corpo in lega leggera (Lega di alluminio). Per la pulizia non utilizzare prodotti contenenti soda caustica.

TD55MD - TD55MS

It is possible to fit 5 types of standard knives for machining 5 different profiles (see drawings). Due to the particular tool geometry, this item is particularly indicated for cutting deep profiles.

These items are supplied without knives.

Light alloy body (Aluminum alloy). For cleaning do not use products containing caustic soda.

Con questo utensile si possono ottenere n. 5 tipi di profili diversi (vedi disegni). Possibilità di realizzare specchietti lunghi anche oltre l'albero portautensili (particolarmente utile per l'esecuzione di specchietti per portoni).

Questi articoli vengono forniti senza coltelli.

Corpo in lega leggera (Lega di alluminio). Per la pulizia non utilizzare prodotti contenenti soda caustica.
